

## TOP NEWS

- Raking of our 2021's reds, took place early December, after a 18 month maturation they will be bottled at the end of January after a slight filtration.

Although the yields have been historically low and in spite of a lighter color than the previous vintages the quality will be very good showing the typicity of Pinot Noir from Burgundy with nice red fruits aromas, nice acidity and lingering tannins.

- New appellations for 2021 vintage :

Two new red villages appellations Maranges and Fixin have been produced by our oenologist team. This will complete perfectly our range in offering more diversity to it with two different style of wine.

- Our 2022 white and red wines are in their ageing process. Due to the earlier harvest and the warm autumn the malolactic fermentation is almost done and we expect a bottling of the white wines in June 2023 and December/January 2023 for the reds.

## WINE PAIRING

Holidays are coming! We suggest to pair our iconic Beaune 1er cru "Clos Saint Anne - Sur Les Grèves" 2018 with stuffed capon, mushrooms and chestnuts.

The tannins will balanced the chestnuts and the flavors of the capon, the fruits of the wine will pair the mushrooms perfectly.

## WINEPARIS 2023

From 13 february to 15 february, Wineparis will be held and we'll be there !

Please find us on our stand 3D-162.

We're looking forward to seeing you !
